TO WHOM IT MAY CONCERN:

I have retained Dr. Jay Grossman to perform review and provide testimony in an ongoing dental negligence case involving a failed root canal. I represent the plaintiff. My experience with Dr. Grossman has been exceptional.

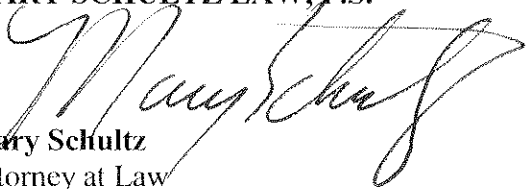

I've worked with a number of experts over the years, and I find Dr. Grossman to be consistently accessible, responsive, articulate, and very down to earth in his way of communicating dental concepts

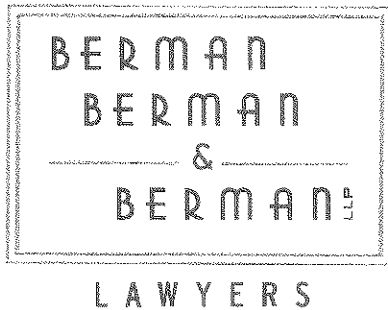

Because of conflict issues, I had to appear by video conference when defense counsel took Dr. Grossman's deposition. They were present in the room with him and I was not. This is not the norm for me, but I spoke with Dr. Grossman beforehand to remind him to account for the video delay prior to answering questions when substantive areas were explored. He did this unfailingly through the deposition. His manner with defense counsel was cordial, conversational, and yet thoroughly professional and direct. His organization, recall of the evidence, and ability to respectfully and directly respond to questions by citing evidence and tying that evidence to his concepts was one of the best I've seen. It was an exceptional deposition performance, and I look forward to presenting this witness at trial. He would be an exceptional expert witness regardless of the jurisdiction and venue.

Please feel free to contact me if there are any questions regarding the above.

Sincerely,

MARY SCHULTZ LAW, P.S.

RE: *Cresap v. Panahpour*
Our File No. R2805.10

Dear Dr. Grossman:

As you are aware, we received a 12-0 defense verdict on the above-referenced matter.

Your testimony as our dental standard of care expert was the cornerstone of our defense. The genesis of our victory was your early and conscientious review and dissection of this case. Without your guidance throughout this matter, I am certain we would not have achieved the result we obtained at the Orange County Superior Court. I found your responsiveness to be incredible, and your deposition and trial presentation some of the best I have seen in my 18 years as a trial lawyer.

I will certainly be utilizing your services in the future, and will freely recommend you to any trial attorneys requiring your most able assistance.

Very truly yours,

BERMAN, BERMAN & BERMAN, LLP

RE: *Recommendation of Jay Grossman, D.D.S.*

TO WHOM IT MAY CONCERN:

I am writing to provide the strongest recommendation possible for Dr. Jay Grossman to serve as an expert witness.

Our firm retained Dr. Grossman to serve as a retained expert in an extremely complex and difficult dental malpractice case. Dr. Grossman came highly recommended to us by a well known medical malpractice lawyer here in Orange County.

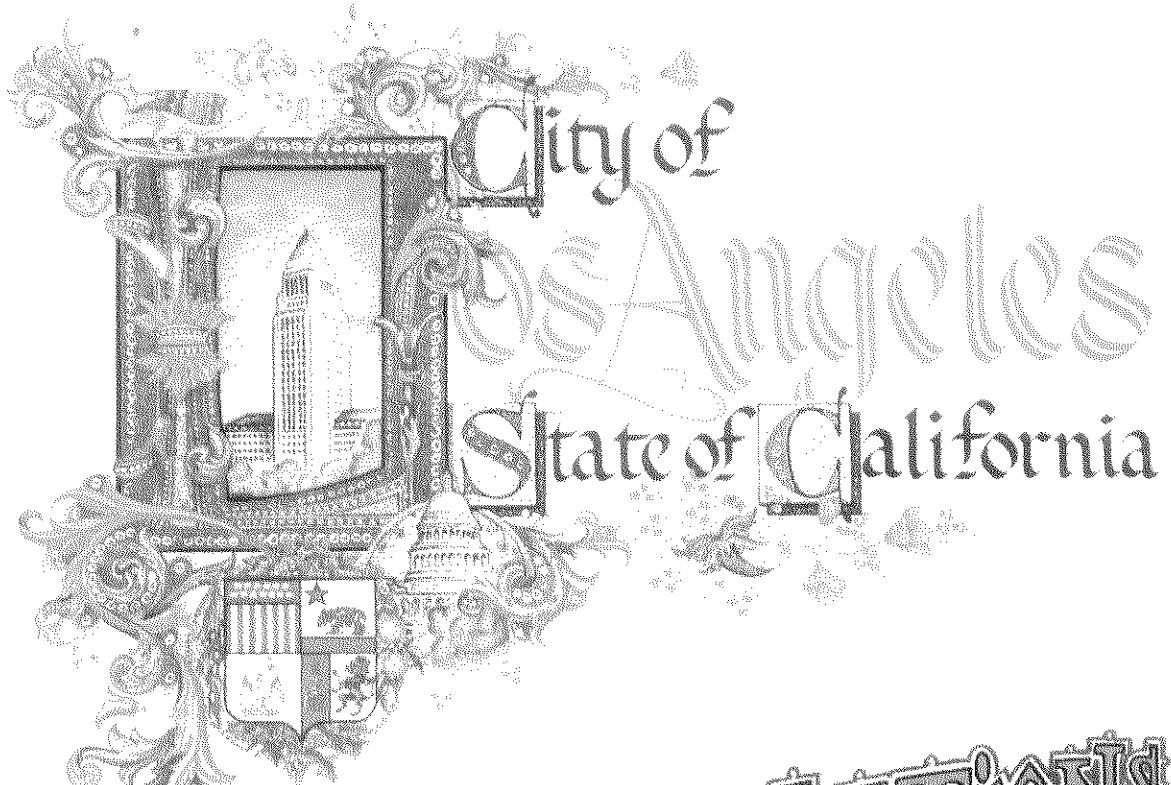

The retention of Dr. Grossman could not have been a better decision. For starters, Dr. Grossman was always accessible, thoroughly knowledgeable of the issues, and well prepared throughout the course of the case. And when it came to deposition and trial, Dr. Grossman only got better. In fact, he is probably one of the best testifying experts I have ever worked with (and I have worked with many). He handled defense counsel, who specializes in dental malpractice, with ease, and the jury loved him (as demonstrated by the verdict). As far as I am concerned, Dr. Grossman is one of the best experts out there, and I would not hesitate to retain him again.

Should you require any additional information, please do not hesitate to contact me.

Very truly yours,

Christopher L. Pitet
