To Whom it May Concern,

I had the pleasure of working with Dr. Jay Grossman, D.D.S. in conjunction with a recent medical malpractice case. My office retained Dr. Grossman as a dental causation and damages expert toward the end of said litigation, and in so doing, provided Dr. Grossman with a very short period of time to review a voluminous amount of medical documentation, and to develop and provide opinions as to dental causation and damages pertaining to a very complex factual scenario.

Dr. Grossman executed all of the aforementioned tasks, and more, in a remarkably short period of time. His analysis was thorough and well-grounded in both law and medicine. He came to his deposition well prepared, and handled challenging questions articulately and with great poise. Dr. Grossman also re-arranged his schedule to evaluate and provide some much-needed care and treatment to my client. My client reported to me that he was extremely impressed with Dr. Grossman.

Moreover, Dr. Grossman is a refreshing expert to work with. He is accessible, responsive, accommodating, and very eager to assist in any possible way that he can. I would recommend him highly to any firm or attorney looking for a reliable and truly excellent dental expert.

Should you have any questions or want to discuss this referral further, please feel free to give me a call.

Sincerely,

Lauren Mullee

February 18, 2010

To Whom It May Concern:

My office recently had the pleasure of retaining Dr. Jay Grossman as an expert in a complex dental malpractice action which was filed in Washoe County, Nevada.

When we initially contacted Dr. Grossman, we only had a four or five weeks before our deadline to disclose our expert witnesses. Despite the substantial materials related to the case, he timely reviewed all of the dental records and depositions.

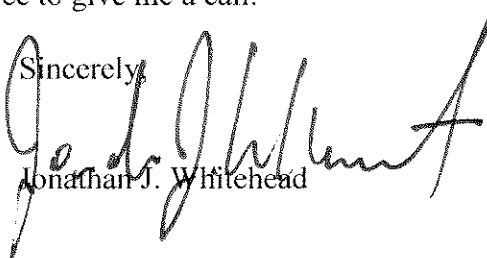

He was extremely responsive to our questions and inquiries as the case developed; indeed, he made himself readily available for telephone conferences before we had to disclose his opinions. He provided us the necessary time to prepare him for both his deposition and trial. In fact, Dr. Grossman and I worked until 12:00 a.m. the night before he testified at trial to make certain we covered all potential issues.

Dr. Grossman was well prepared and organized for his deposition, including extensive written notes and opinions. The defense counsel spent nearly four hours deposing him but was unable to undermine Dr. Grossman's credentials, opinions or testimony.

During the first two weeks of February 2010, I successfully tried the case to a jury on behalf of the Plaintiff. Without hesitation, Dr. Grossman appeared on the day which I requested that he testify. Dr. Grossman was well prepared for trial. Moreover, he was very charismatic, articulate, and artfully handled the cross examination. In short, he made an excellent witness. Following the trial, my office got the opportunity to interview the foreman, who noted that Dr. Grossman was well received by the jury.

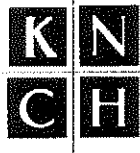

In sum, I highly recommend Dr. Grossman's expert services. If you wish to speak in greater detail, please feel free to give me a call.

Sincerely,

Jonathan J. Whitehead

KOELLER | NEBEKER | CARLSON | HALUCK LLP

January 26, 2010

To Whom It May Concern:

I have recently had the pleasure of retaining the expert services of Dr. Jay Grossman, DDS in a serious personal injury case. Dr. Grossman's commitment to providing the highest level of service to counsel was apparent from the outset. Dr. Grossman was reliable and diligent in his efforts to immediately report any finding of consequence with regards to my client's case, and his attention to detail was impeccable in his review of the various documents I sent to him. His report was meticulous, thorough, and written with great care as to ensure that counsel, and potentially a jury, would understand his findings and their implications.

I am looking forward to working with Dr. Grossman again in the future should my clients require the services of a dental expert, and would gladly recommend him to anyone else in need of such services.

Sincerely,

Koeller, Nebeker, Carlson & Haluck, LLP

Re: Expert Witness Services
Dental Board - Office of Administrative Hearing

Dear Dr. Grossman:

We wanted to write to thank you again for your time and assistance on our Dental Board – Office of Administrative Hearings (“OAH”) proceeding. The election of the Dental Board to dismiss the Accusation against our client professionals, ending all proceedings before the OAH, was a direct byproduct of our “standard of care” and “periodontal conditions” experts, the degree of their diligent review of records and analysis of claims and causation, and your ability to demonstrate a readiness to successfully contest the Dental Board positions as well as the assessment of its one expert at the time of the Hearing. Your expert retention and efforts on the standard of care issues was an essential part of the disposition of this matter.

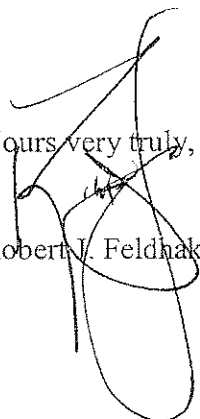

We have the privilege of working with many experts in a variety of areas. We have always appreciated your availability, responsiveness and commitment through a quality assessment of the issues. In particular, through multiple conferences, issue discussion, record review and back-and-forth analysis of the issues framed by the Dental Board, we respected your focus on key issues, your independent and objective assessment of the efforts of our clients, and the structure of your anticipated opinions as we moved closer to the Hearing. Also, as stated already, for lawyers working with already difficult schedules, your ready availability to speak, preparation for every conference, and working with us on the timelines presented, were factors which made our lives a lot easier, as we moved toward a successful result in the case.

As matters arise in the future, we would not hesitate to again call upon your services as a standard of care expert. That is not because we necessarily know your opinion in advance of an engagement, but rather because we trust the detailed review you undertake and the insistence on a properly grounded objective and prepared assessment. That is exactly the kind of work product we want from experts. So, our thanks for your work here. We look forward to the privilege of working with you again in the future.

Best regards.

Yours very truly,

Robert J. Feldhake

To Whom It May Concern:

Re: Jay Grossman, M.D.

Dear Sir/Madam:

This letter of recommendation is written on behalf of Dr. Jay Grossman. I recently handled a rather complex and high damages dental negligence case. Dr. Grossman was our consultant and was then designated as an expert on the case.

Having worked with a number of experts in my career, I can honestly say that he is one of the finest. He presents well, was clearly prepared and has excellent credentials. I am confident that as a result of his expertise, that assisted us settling the case without the necessity of a protracted trial.

Should you have any additional questions, please contact the undersigned.

Very truly yours,

HODES MILMAN, LLP

TO WHOM IT MAY CONCERN

RE: The Forensic Ability of Jay S. Grossman, D.D.S.

While I have worked with him on one dental malpractice case that was filed in Madera County, California, I was pleased that Dr. Grossman was agreeable to rendering an opinion on dental negligence. I sent him the entire file, and I got a prompt response.

He also followed up with a telephone call, and I was appreciative of that.

Overall, I would recommend Dr. Grossman forensically. While I represented the patient, I think his approach would make him amenable to both sides of a dental malpractice case.

I look forward to sending him another case for review.

Sincerely yours,

Edward L. Fanucchi

Re: **Henry v. Loma Linda**

Dear Dr. Grossman:

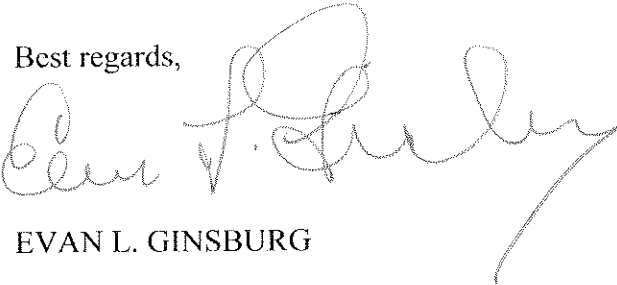

I must apologize for the delay in getting this out to you. It was merely my negligence and forgetfulness. I have had your bill sitting here, both my client and I greatly appreciate the reduction in the balance due, and this check should have been sent sooner.

I was tremendously impressed with you and your office, and would highly recommend you for anyone who needs dental work or an expert. Although we had to drop the Henry case, it was a combination of the cost of moving forward and the damages.

I do have a new case with a Dr. Kim who also spoke highly of you. He is a dentist, but it is an optical malpractice case. I wanted to pass on his best wishes, and of course, extend mine to you and your family and particularly your mother who I met for just a moment.

I hope the new year works out great for you. If I can be of any help at any time, please feel free to call me.

Best regards,

EVAN L. GINSBURG

Dear Dr. Grossman:

I wish to express not only my thanks, but my client's' thanks, for your expertise in proving that plaintiff's severe TMJ disorder (and her other dental issues) were present before the accident, and that the accident did not aggravate her pre-existing condition. Your opinions and conclusions played a prominent role in our ability to reach a very favorable settlement.

Very truly yours,
